Available vaccines:

Pfizer first dose, second dose or booster

For adults aged 16 and over

Each vaccine dose gives a different level of protection against COVID-19 and its variants.

1ST DOSE

The 1st dose should give you some protection from 3 or 4 weeks after you've had it

2ND DOSE

You will need two doses for stronger and longer-lasting protection

BOOSTER

A booster dose improves your longer-term protection against getting seriously ill from COVID-19
